Education

- A. P. Shah Institute of Technology, Mumbai, India** 2024 - 2028
- Bachelor of Engineering, Computer Engineering | Present CGPA: 8.40
 - Interests: Generative AI, LLMs, AI Agents, AI Products, Emerging AI Technologies, AI × Finance

Achievements

- Special Prize Winner (Content), Monad Blitz Mumbai V4 Hackathon:** Awarded at the hackathon organized by Monad Foundation for HumanYield, an Income Share Agreement platform built with teammates on Monad Testnet.

Skills

Languages: Python

AI Technologies: Generative AI, LLM Workflows, Prompt Engineering, AI Automation, Custom GPTs, Face Recognition

Frameworks: React, Next.js, Tailwind CSS, GSAP

Fundamentals: Data Structures

Version Control: Git, GitHub

Projects

Jeevan Grid ([Link](#))

- Built a citizen-first disaster resilience and emergency management platform for India, helping people understand localized risk and stay safer during emergencies.
 - Enables access to verified multi-hazard early warnings, emergency reporting and coordinated community response in a single interface.
- Tech Used:** Next.js, React, TypeScript, Tailwind CSS, Vercel

Portfolio AI ([Link](#))

- Developed a risk-aware portfolio allocation engine that supports investment decisions with data-driven allocation insights.
 - Designed a clean, dark-themed interface that simplifies portfolio analysis for everyday investors.
- Tech Used:** Next.js, React, TypeScript, Tailwind CSS, Vercel

HumanYield ([Link](#))

- Built a consumer Income Share Agreement (ISA) platform where backers fund a person's course, certification or creative project and receive a share of their reported income.
 - Deployed smart contracts on Monad Testnet to automate agreements and settlement.
- Tech Used:** Next.js, React, Smart Contracts, Monad Testnet, Vercel

Mumbai Builds ([Link](#))

- Built and deployed the landing site for a Mumbai-wide student innovation platform and hackathon connecting builders with industry, mentors and real-world problems.
 - Structured the site so all content is driven from a centralized configuration, making updates quick and consistent.
- Tech Used:** Next.js, React, TypeScript, Tailwind CSS, GSAP

Experience

Product Growth Intern | Concept Simplified Jun 2025 - Sep 2025

- Guided prospective engineering students through admission options, translating complex information into clear guidance.
- Explained colleges, branches, admission processes and eligibility criteria in simple terms, helping students and parents make informed decisions.
- Engaged and followed up with prospective students to understand their goals, answer queries and move them smoothly through the admission journey.
- Gained hands-on exposure to product growth, user communication and the student decision-making funnel in an education-focused startup.

Leadership

Operations Head | GDG On Campus APSIT

- Lead planning and execution of technical events and workshops, coordinating speakers, teams and logistics.
- Manage end-to-end event operations including scheduling, venue and resource arrangements, registrations and on-ground volunteer coordination.
- Build relationships across student and technology communities and support participation in technical programs.
- Work with core team members to align event themes with current developer and AI trends so sessions stay relevant for students.

Joint Event Head | Computer Students Association (CSA)

- Organize and coordinate student-led technical events, encouraging collaboration and peer engagement.
- Support planning, team coordination and day-of execution for workshops and competitions, ensuring events run smoothly.
- Collaborate with fellow organizers and volunteers on outreach and participation to grow student involvement in technical activities.

AI Ecosystem & Programs

- Claude Impact Lab Mumbai: Anthropic:** Selected participant; explored practical AI applications and product development with Claude.
- OpenAI Codex Workshop:** Explored AI coding agents, code generation, debugging and AI-assisted developer workflows.
- NVIDIA Nemotron Workshop:** Explored LLMs, Generative AI and enterprise AI applications through the Nemotron ecosystem.
- DevDays Mumbai: Agent-Driven Engineering & Copilot:** Developer event on agent-driven engineering and AI-assisted development.
- Agents & APIs Mumbai Developer Meetup: Postman:** Developer meetup on APIs, agents and modern application development.
- Cloudways Builders Event · Build On Stellar Mumbai · Meta × ShopOS.ai × Crafeed:** Builder and ecosystem events across cloud, blockchain and AI-native e-commerce.

Certifications

- Oracle Cloud Infrastructure 2025 Generative AI Professional
- Generative AI Mastermind: Outskill (16 hours):** LLM workflows, Custom GPTs, AI automation and prompt engineering
